

Traffic Signal & Pedestrian Heads

Envoys Electronics is one of the largest manufacturers for Traffic Signal Heads in India

Pedestrian Traffic Light

Hi Flux LED Light

Side View with colored lens

8" Traffic Light Vehicular

Salient features of Traffic Signal Heads

- Special Quality LEDs for uniform high output for extended period and much longer overall life
- Uniformly spaced LEDs give larger and uniform view for dot matrix & high Flux
- Light Intensity & Colour wavelength of LEDs are measured at our optical lab to comply with International specifications
- Complies minimum viewing angel specifications
- The Assemblies use no reflector and LEDs have no colour in off condition eliminates sun phantom effects.
- Available in different voltage versions in AC and DC
- Optical unit and housing protected to IP65/IP54
- Better than 0.9 power factor in AC mains version
- Intensity loss on single LED failure less than 2%
- CE Certified & in compliance with BSEN12368

There specifications are for general guidance and subject to change in view of rapid advances in technology and the changing requirements of the customers and revision of specifications. We welcome customers design and specifications
